

# DoUse® 600 Wetter

## DIRECTIONS FOR USE:

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

### HORTICULTURAL SPRAYS:

Add DoUse 600 Wetter at 10 mL per 100L of spray (2mL per 15L knapsack). DoUse 600 Wetter is recommended for addition to all horticultural sprays except those known to include adequate wetting agent in the formulation.

Increased activity will be obtained by increasing the rate for waxy leafed plants which are normally hard to wet. It is important to spray only to the point of wetness. Excessive use of wetting agents can cause run-off of active ingredient with consequent loss of efficiency.

### HERBICIDES:

DoUse 600 Wetter may be added to all post-emergence herbicide sprays to increase their efficiency except those which are known to contain adequate wetting agent in the formulation. Wetter should be added only where directed on individual labels as use with selective herbicides outside label directions may reduce crop selectivity. For foliar active herbicides spray to the point where leaves and stems are just wet. Spraying beyond this will encourage run-off, with obvious loss of spray chemicals. When spraying waxy or hairy leafed plants which are normally hard to wet, increased activity will be obtained by increasing the rate of DoUse 600 Wetter. It is important that the leaves and stems are thoroughly wetted for foliar herbicides to work efficiently, particularly when treating dense, tall vegetation.

| Type of Equipment       | Quantity of DoUse 600 Wetter to add to spray |
|-------------------------|--|
| High volume power spray | 12 mL/100 L                                  |
| Low volume boom spray   | 60 mL/100 L                                  |
| Misting machines        | 5 mL/5 L                                     |
| Knapsack                | 2 mL/15 L                                    |

### PARAQUAT AND DIQUAT

For the maximum efficiency of these contact herbicides a higher rate of DoUse 600 Wetter must be used to ensure even and thorough coverage of plant foliage and to increase absorption. Add DoUse 600 Wetter at these rates unless otherwise specified.

| Type of Equipment       | Quantity of DoUse 600 Wetter to add to spray |
|-------------------------|--|
| High volume power spray | 200 mL/100 L of spray                        |
| Boom spray              | 200 mL/100 L of spray                        |
| Knapsack                | 30 mL/15 L of spray                          |

### Paraquat Dichloride 250 g/L

Paraquat Dichloride 250 g/L formulations contain wetting agents and DoUse 600 Wetter is only required if dilution rates are excessive i.e. Low chemical rates and high water rates per ha. If the Paraquat Dichloride 250 g/L formulations rate is less than the ratio of 400 mL/100 L spray volume add 100mL of DoUse 600 Wetter per 100 L of spray mix.

### Diquat and Paraquat mixtures 250g/L

Diquat and Paraquat mixtures 250g/L contain wetting agents and DoUse 600 Wetter is only required if dilution rates are high.

If the spray volume is above 100L/ha, DoUse 600 Wetter should be added at the rate of 20mL/100L of additional water.

### SOIL RESIDUAL HERBICIDES:

When applying soil active herbicides such as Diuron or Atrazine to standing weeds, add DoUse 600 Wetter to thoroughly wet foliage. Rates will range from 125 mL - 500 mL/100L depending on product used.

Consult product labels for individual recommendations and restrictions.

### FIRE FIGHTING:

DoUse 600 Wetter is an efficient aid to fire fighting. It increases the wetting power of water which assists in quick control and mopping up of fires.

| Type of Equipment | Quantity of DoUse 600 Wetter to add to spray |
|-------------------|--|
| Water Tanker      | 10 mL/100 L of spray                         |
| Knapsack          | 2 mL/15 L of spray                           |

### GENERAL INSTRUCTIONS:

DoUse 600 Wetter is a spray additive designed for use with fungicides, insecticides and herbicides.

DoUse 600 Wetter increases the activity and efficacy of pesticides and Herbicides. It increases wetting and improves spray coverage. DoUse 600 Wetter can be used with alkaline sprays and mixes easily with all types of water. It will not injure the most tender foliage if used as directed. Spray only to the point where leaves are just wet. Spraying beyond this will encourage run-off, with obvious loss of spray chemicals and efficacy.

### MIXING:

DoUse 600 Wetter mixes easily and quickly with water and should be added direct to the spray tank. It should not be added direct to undiluted sprays containing wetting agents.

### PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT:

DO NOT contaminate streams, rivers or waterways with chemical or used containers.

### STORAGE AND DISPOSAL:

KEEP OUT OF REACH OF CHILDREN. Store in the closed, original container in a well-ventilated area. Do not store for prolonged periods in direct sunlight.

Triple rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean container to recycler or designated collection point. If not recycling, break, crush or puncture and deliver to an approved waste management facility. If an approved waste management facility is not available, bury the containers below 500mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with local, state or territory government regulations. Do not burn empty containers or product.

### SAFETY DIRECTIONS:

May irritate the eyes and skin. Avoid contact with eyes and skin. When using or preparing product wear cotton overalls buttoned to the neck and wrist (or equivalent clothing), elbow-length PVC/rubber gloves and goggles. If product on skin immediately wash area with soap and water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water.

### FIRST AID:

If poisoning occurs, contact a Doctor or Poisons Information Centre (Phone Australia 13 11 26). If skin contact occurs, remove contaminated clothing and wash skin thoroughly.

### SAFETY DATA SHEET:

For further information refer to the Safety Data Sheet (SDS), which is available from the supplier.

### CONDITIONS OF SALE:

The use of DoUse 600 Wetter being beyond the control of the Manufacturer, no warranty expressed or implied is given by Australian Adjuvants Pty Ltd regarding its suitability, fitness or Efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and Australian Adjuvants Pty Ltd accepts no responsibility or any Consequences whatsoever resulting from the use of this product.

Dial 000  
Police or Fire Brigade**

The following hazard and precautionary statements are in addition to, and must be read in conjunction with the full product label:

### Harmful if swallowed. Causes serious eye damage.

Read label before use. Wash hands, face and all exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective clothing, gloves and eye/face protection. If medical advice is needed, have product container or label at hand. IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. Rinse mouth. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor/physician.
