DINECTIONS FOR USE		
Situation	Application rate per	Critical Comments
	100L spray volume	
Post emergence herbicides	0.3 - 1.0 L	Expedient® may be used in place of non-ionic surfactants or crop oils. Subject to
		spray volumes, usage rates may vary between 0.2 - 2.0 litres of Expedient®.
Propaquizofop herbicides (100 g/L EC)	500 mL	For post-emergence use on peanuts and soybeans. Refer to herbicide label.
TOPIK		Wheat, post-emergence. Refer to herbicide label.
Pyrethroid insecticides	2.0 - 5.0 L	Expedient® may be used with certain emulsifiable concentrate formulations.
Defoliants	0.6 - 2.0 L/ha	Expedient® may be used in place of crop oils. The higher recommended rate may
Desiccants	0.6 - 2.0 L	be necessary when plants are subject are subject to severe stress.

## NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL, UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.

## General Instructions

Expedient® is a highly penetrating spray adjuvant suitable for use with certain post emergent herbicides, pyrethroid insecticides, defoliants and desiccants. It improves pesticidal performance by utilising the excellent penetration effect of esterified vegetable oils in combination with the wetting and spreading characteristics of non-ionic surfactants.

## Herbicide Sprays

Expedient® can be added to certain post emergent herbicides to increase their efficacy. In some situations, Expedient® may reduce selectivity. Care must be exercised when applying Expedient® with post emergent herbicides on sensitive crops under conditions where plants are subject to drought stress, high temperatures, and high humidity. If in doubt it is a sensible precaution to trial a small area before committing to a large scale application.

## **Pyrethroid Insecticides**

Addition of Expedient® to certain emulsifiable formulation of pyrethroid insecticides can improve efficacy.

## Compatibility

Expedient® is compatible with SELECT®, SPINNAKER®, SHOGUN® and TOPIK®.

#### Precaution

Read all directions for use on the Expedient® label and on the pesticide label. The pesticide manufacturer's directions and recommendations always take precedence over directions on this label.

# Protection of Livestock, Wildlife, Fish, Crustaceans and Environment

Do not contaminate streams, rivers or waterways with the chemicals or used container.

# Storage and Disposal

### KEEP OUT OF REACH OF CHILDREN.

Store in closed, original container in a cool, well-ventilated area, Do not store for prolonged periods in direct sunlight. Triple or preferable pressure rinse

containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on-site.

If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn containers or product.

### Refillable Containers

For 110 L and 1000 L containers empty contents fully into application equipment. Close all valves and return to point of supply for refilling or storage.

# Safety Directions

May irritate eyes and skin. Avoid contact with eyes and skin.

Avoid inhaling vapour or spray mist, Wear overall, rubber gloves and googles or disposable face shield. After each day's use wash contaminated clothing, gloves and face shield or googles with soap and water.

## First Aid

If poisoning occurs, contact a doctor or Poison Information Centre (Phone 13 11 26). If swallowed, DO NOT induce vomiting, give a glass of water.

## Safety Data Sheet

Additional information is listed in the Safety Data Sheet.
