

Be-Calm

DIRECTIONS FOR USE

Situation	Use Rate	Critical Comments
Agricultural Spray Tanks	20 mL/ 1000 Litre	Use rate will vary dependent upon amount of foam present. Where large quantities are forming better control may be achieved by pre-diluting BE-CALM 1:5 in water before addition to tank.
Post treatment	(1 – 2 caps full)	Add BE-CALM at the suggested rate first. Allow 1-2 minutes for BE-CALM to activate before adding more.
Pre-treatment	150 - 250 mL/1000 Litres	
High agitation conditions	1000 mL/1000 Litres	Add BE-CALM before foam levels are high.
Dip tanks for fruit	20 mL/ 1000 Litres	Vary usage as required.

GENERAL INSTRUCTIONS

BE-CALM is a special purpose foam suppression additive for use in agricultural chemical sprayers and also for use in dip tanks commonly used in the grading of pome and stone fruit. BE-CALM should be added to the tank before foam levels build to an excess, so that filling can continue.

MIXING INSTRUCTIONS

Shake container before use. BE-CALM can be pre-diluted 1:5 in water or added directly to the spray tank.

PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

DO NOT contaminate streams, rivers or waterways with the chemical or used container.

STORAGE AND DISPOSAL

Keep out of reach of children. Store in closed, original container in a well ventilated area, as cool as possible. Do not store in direct sunlight. Triple or preferably pressure rinse containers before disposal. Add rinsings to the spray tank. Do not dispose of undiluted chemicals onsite. If recycling, break, crush or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in

compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

SAFETY DIRECTIONS

Do not swallow. Avoid contact with skin or eyes. Wear rubber gloves, overalls and goggles or face shield. Wash hands with soap and water after use.

FIRST AID

If poisoning occurs contact a doctor or Poisons Information Centre (Ph 13 11 26). If in eyes, hold eyes open and flood with water for at least 15 minutes and see a doctor. Additional information is listed in the Safety Data Sheet.

CONDITIONS OF SALE

The use of BE-CALM being beyond the control of the manufacturer, no warranty expressed or implied is given by Australian Adjuvants Pty Ltd regarding its suitability, fitness or efficiency for any purpose for which it is used by the buyer, whether in accordance with the directions or not and Australian Adjuvants Pty Ltd accepts no responsibility for any consequences whatsoever resulting from the use of this product.
